

# TBI Waiver Implementation

Health and Human Services  
Legislative Oversight Committee  
November 29, 2016

# Partnership in Planning

- Alliance, DMA and DMH meetings
- Communication Plan – getting the message out
- Brain Injury Advisory Council
- Brain Injury Association of NC
- Survivor and family/caregiver input to include a local TBI Stakeholder's group

# Alliance Internal Infrastructure

- Training and required qualifications
  - Care Coordination
  - Utilization Management/Care Management

# Provider Selection Process

- Provider selection process
  - Procurement process – RFP
  - Securing new providers in a closed network system

# Identifying Potential Waiver Participants

- Eligibility criteria
  - Must be a TBI – no Acquired Brain Injury (ABI)
  - TBI occurred on or after 22nd birthday
- First come, first served waiver

# Keys to Successful Implementation

- Medicaid indicators – DSS/NC FAST
- NC Tracks set-up
  - Alliance has requested to have our vendor at the table with MMIS to ensure systems are set-up to communicate successfully
- Sustainable reimbursement rates for providers

# Keys to Successful Implementation

- Alternative Level of Care for those not able to be supported by the waiver
  - (ECF/Neurobehavioral Center)
- Non-waiver neurobehavioral services for those that do not meet the criteria for the proposed TBI waiver
